

## Do you want to try your farben eyewear before buying it?

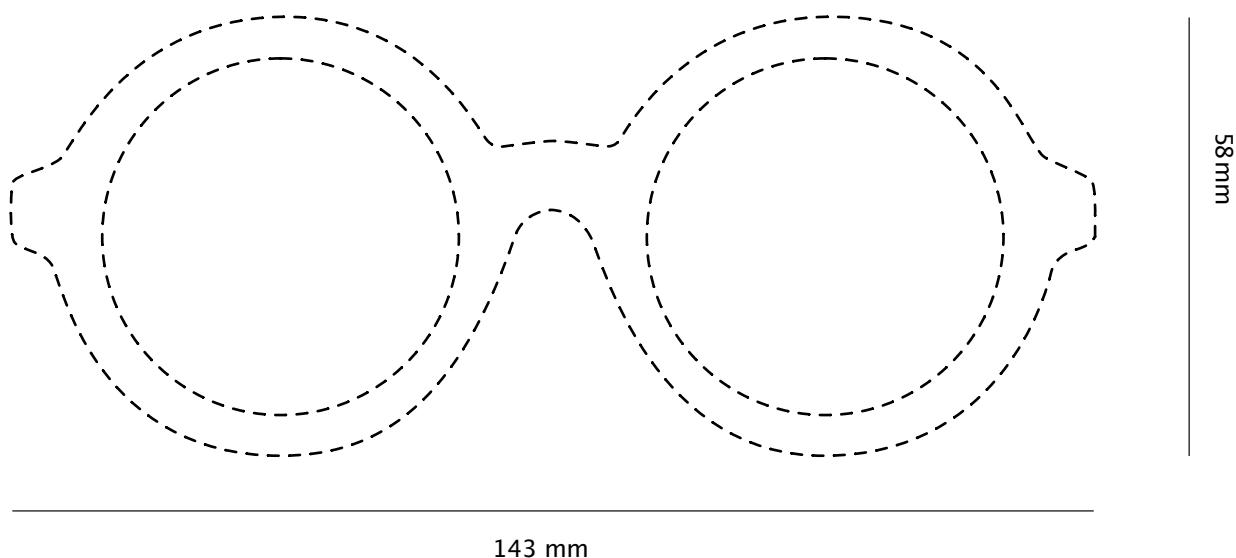

Print and try your farben eyewear.

We could surprise you with the special effects of a virtual try-on, but the truth is that method, however how much used, to date it is not able to respect the proportions of the product in relation to the size of the face: **the risk is that the glasses worn it looks different to you than it does it is actually in reality.**

We thought about this artisanal method - in line with the philosophy of our brand - for make sure **a test like the one you could do in a physical store:** no bad surprises!

Set the printer to 100% of the print area.

**DO NOT CHOOSE TO FIT THE PAPER!**
